Attention Clients and Friends of DARcorporation:

We have never made a political statement in the history of our company, but due to some of the proposed changes in our country, under the new Executive Branch, we feel the need to declare our official position with the following statement.

DARcorporation strongly supports a global economy and free trade with non-sanctioned countries all over the world. We do not support closing our borders and we do not support adding tariffs on goods imported/exported by foreign countries. DARcorporation strongly supports and will never discriminate against anyone, regardless of race or ethnicity, religion, gender or any member of the LGBT community. DARcorporation will never support a Muslim or other minority group Registry. DARcorporation is a strong combater of Climate Warming/Change and is working diligently to promote and develop solar and wind energy.

Signed,

Dr. Willem Anemaat, President

MaryJo Anemaat, Vice President

DARcorporation Engineers & Staff
