Aircraft Modification

DARcorporation has years of experience in design, analysis and manufacturing of aircraft modifications for various applications. Our years of experience in aircraft design, aerodynamic analysis, structural analysis and manufacturing ensures any modifications will have as little adverse effect on the aircraft aerodynamics, performance and handling qualities as possible.

Starting with a careful review of objectives and existing data, DARcorporation will offer an assessment of the consulting project including a cost and timeline projection. Your specifications will aid our engineers in the design of your modification. Or, if you need a review of an existing modification, we will analyze your modified aircraft and provide detailed documentation covering the effects of the modification on the aircraft aerodynamics, performance and stability and control and make suggestions if the modification degrades aircraft performance too much. DARcorporation may also provide manufacturing support and oversee quality control when necessary.

Aircraft modification projects that DARcorporation has participated in include:

- NASA P-3 MCoRDS Radar Integration
- Cessna Citation XLS+ Icing Tanker Spray Boom
- Basler BT-67 Ultra-WideBand Ice Radar
- AEL Industries KC-135R Modified Refueling System
- Boeing 737-700 Satellite Communications Radome
- NOAA P-3 EcoSAR Radar Instrument
- NASA DC-8 MCoRDS Radar Integration
- Beechcraft King Air B200 Nose Mounted Radome

Upcoming Webinar and Airshow:

New Webinar on History of Airplane Design

July 11, 2018
11:00 AM - 12:00 PM CDT US

Instructor: [Dr. Jan Roskam](#)

Description: Dr. Jan Roskam continues the informative History of Airplane Design webinar series, focusing on specific companies and their contributions to the commercial, military and transport aircraft industries. Companies include Curtiss, Bell, AVRO-Canada, De Havilland-Canada, Canadair, Learjet and Bombardier.

[Register](#)

July 23 - 29, 2018
Wittman Regional Airport, Oshkosh, Wisconsin

We will be manning a booth at EAA AirVenture 2018 this summer! Grab some shade in Hangar C and come see us at booth [#3159](#), straight inside the hangar door on the right side!

Privacy Policy Change

As of May 25, 2018, we are updating our privacy policy when a new European privacy law, the General Data Protection Regulation (GDPR), takes effect. Profile information you provide (such as name, e-mail address, mailing address and phone number) is kept confidential and never sold or shared with any outside organization. Your information allows us to contact you to ensure your satisfaction with our customer services and/or technical support. If you wish DARcorporation to not use your information to contact you, please [click here](#).
